PROJECT PROPOSAL & QUOTATION

Task Management System (Web Application) cost = 35000/-+ GST 18%= ₹41300/-

1. Project Overview

We propose to design and develop a Task Management System using the MERN Stack (MongoDB, Express.js, React.js with Next.js, Node.js).

The system will help streamline project workflows, manage tasks efficiently, track staff attendance, and maintain centralized client data with automated notifications.

2. Technology Stack

- Frontend: Next.js (React Framework)
- Backend: Node.js with Express.js
- Database: MongoDB
- Authentication: JWT / Role-Based Access
- Notifications: Email (SMTP), WhatsApp API, SMS Gateway
- Hosting: Vercel / AWS / Dedicated Server

3. Modules & Features

3.1 Task Management Module

- Create, assign, and track tasks
- Task priority (Low, Medium, High)
- Deadline and status tracking
- Subtasks and comments
- File attachments
- Activity logs

- **3.2 Project Lifecycle Management**
- Project creation and planning
- Milestones and deliverables tracking
- Progress monitoring dashboard
- Role-based access (Admin / Manager / Staff)
- Project status (Active, Completed, On Hold)

3.3 Project Renewal Notification System

- Automated reminders before project expiry
- Notification channels:
 - Email alerts
 - WhatsApp notifications
 - SMS alerts
- Custom reminder scheduling
- Renewal tracking dashboard

3.4 Staff Attendance Module

- Daily attendance marking
- Login/Logout tracking
- Monthly attendance reports
- Leave management system
- Admin dashboard with analytics

3.5 Client Dashboard & Data Management

- Centralized client database
- Client-wise project tracking
- Payment and renewal status
- Dashboard analytics (graphs & reports)
- Search and filter functionality

4. Admin Panel Features

- User & role management
- System settings
- Notification control panel
- Reports & analytics
- Data export (Excel/PDF)

5. UI/UX Features

- Responsive design (Mobile + Desktop)
- Clean dashboard interface
- Real-time updates
- Secure login system

6. Development Timeline

Total Estimated Time: 25–30 Days

7. Payment Terms

- 50% Advance
- 50% After Completion & Delivery

8. Maintenance & Support

- 6 Month Free Support
- Post-support AMC available (optional)

9. Deliverables

- Complete Web Application
- Source Code (MERN + Next.js)
- Deployment Support
- Documentation

10. Assumptions

- Third-party API costs (WhatsApp/SMS) will be borne by client
- Hosting & domain charges excluded
- Any additional feature will be charged separately

11. Approval

Client approval is required to initiate the project.

Regards!
